The headquarters units of the regiment were: a. A signal company, commanded by Lieutenant Molnar, (fnu), and organized into a headquarters and 3 platoons. It consisted of 3 officers, including Lieutenant Voelgyi, (fnu), 4 NCOs, and about 100 EM who wore dark-blue service color. b. A mortar company consisting of 3 officers and about 80 NCOs and EM who wore red service color. Lieutenant Balogh, (fnu), was the commanding officer of the company and Lieutenant Karoly Szabok political officer. c. A heavy AA machine gun company, organized into a head-25X1 quarters and 3 platoons and consisting of 4 officers, 2 NCOs and about 90 EM who wore red service color with white pipings. The officers of the company were Lieutenant Jozsef Nagy, commanding officer; Lieutenant Gyula Glatz, political Soficer; and Junior Lieutenants Imre Vig and Gyula Virag, platoon leaders. d. An artillery battery, commanded by Lieutenant Vizy, (fnu), consisting of 2 officers, 1 NCO, and about 50 EM who wore red service color. A parachute company, commanded by Lieutenant Jozsef Bako, of about 80 men who wore green service color with white pipings. f. A technical platoon, commanded by Lieutenant Kos, (fnu), made up of soldiers who wore dark-green service color. In addition, the regiment had eight rifle companies, whose organization was Officers of these companies included Senior Lieutenants Forgok (fnu), Susan, (fnu), and Seregi, (fnu); and Lieutenants Bognar, (fnu), Buzas, (fnu), Papp, (fnu), and Karoly Dobos. The last two were political officers. (3) Equipment. 6. All units of the regiment were armed with model M/48 7.62-mm rifles. Squad leaders had submachine guns with drum magazine. Other weapons observed with the regiment included an undetermined number of light machine guns with drum magazines, 12 heavy Maxim machine guns, 12 to 15 light mortars, and 6 x 120-mm mortars mounted on rubber tires and towed by 3-ton Raba Trucks. 7. The AA machine gun company was originally equipped with 12 x 12.7-mm AA machine guns which, however, were subsequently reduced to 6. The machine guns had an effective range of up to 1,500 meters when firing against aircraft or groups of parachutists and pierced 16-mm armor plates at a distance of 500 meters. The machine guns weighed 180 kg with mount and were transported on 12 ton trucks. Their crews consisted of 1 section leader, 2 gunners, and I ammunition bearer. The AA machine gun company had three-lighton trucks. 8. The regiment was equipped with about 50 motor vehicles, most of them 12

- 10. Fram 23 July to 5 August 1950, a large-scale AAA exercise involving about 1,000 soldiers was held in the area northwest of Nograd (Q 48/H 57).

 company commander said that all AAA units of the Hungarian Army participated in this exercise. 50 to 60 AA machine guns and about 15 AA guns in this exercise. on 4-wheel mounts. Also river guard troops wearing dark-blue or black service color and tank troops wearing blue service color were observed with their AA machine guns. The AA machine gun company of the 25th Rifle Regt, with all its vehicles, was shipped by rail to Nograd and participated in two record practices. During the first, several bursts were fired at silhouette targets at a distance of 500 meters. During the second, 30 to 40 rounds were fired at a kite held at distances ranging from 500 to 1,000 meters. The AA guns of other units fired at ground targets and kites.
- 11. During the period from 15 to 20 August 1950, the entire 25th Rifle Regt engaged in a road march of two days. On three days in late August 1950, the regiment held a defense exercise in the area north and east of Nagykoeroes. One week in early September 1950, the re a field exercise in the area between Kecskemet (Y 6/N 95 1.61 za (Y 7/0 03) practicing approach march, taking up of post participated in the exercise were our tanks which officed by fellow-soldiers as T-34s. The field exercise was based on the assumption that Yugoslav troops who had crossed into southern Hungary were to be contained and repulsed across the border. On completion of the exercise, the regiment returned in two sections to the Csakas forest in its own vehicles.
 - 12. During the period from 10 to 22 September 1950, the regiment participated in a divisional exercise in the Kecskemet-Kiskunfelegyhaza-Baja area. The regiment was joined by other infantry, AAA and signal units in Nagykoeroes, A soldier of an infantry unit said that his unit had come from Szekesfehervar (Q 48/Z 00). Eight T-34 tanks joined the march column in Kecskemet. On 12 September 1950, the division rested at Kiskumajsa (Y 6/N 50) and, on 15 September, it advanced from the area south of Kiskunhalas (Y 6/N 70) toward Jankovacz (Janoshalma) (Y 6/S 59). After marching about 10 km, the troops entrenched and remained in their positions until 18 September, awaiting a simulated Yugoslav enemy that had crossed into southern Hungary. On 18 September, when the division reached the Jankovacz-Baja road, was picked up by trucks driven by civilians and hauled to Baja. There it 25X1 moved into a barracks installation which was located on the western edge of the town and guarded by soldiers who wore green service color. The division crossed the Danube River at Baja three times on ferries, floats and boats and on 22 September, terminated the divisional exercise by a parade before the minister of national defense in Csavoly (Y 6/S 48). The 25th Rifle Regt then returned to Nagykoeroes by rail.

Pay, Rations, and Clothing.
